

USA · MEXICO · CANADA · 11 JUNE – 19 JULY 2026

FIFA WORLD CUP 2026

The format, the venues and above all the business model of the first 48-team, three-host World Cup: dynamic pricing, a 30% resale commission, tier-1 sponsorship sold out, premium hospitality and broadcast rights split by language and platform. The consolidated reference file behind the GEORadar audit of the tournament.

01 Executive summary

the records, and why the business model matters

02 Tournament basics

dates, teams, matches, venues, mascots

03 Host cities and stadiums

16 venues across three countries, and the geographic clusters

04 Qualified teams

48 teams, slots by confederation, top seeds and debutants

05 Competition format

12 groups, a new round of 32, and the criticism it attracts

06 Business model

the 2026 novelty: five innovations and \$11B of revenue

07 Sponsors and partners

the tier pyramid, sold out for the first time

08 Broadcast and media rights

\$3.92B, fragmented by language and platform

09 Revenue streams, broken down

line by line, plus the Club World Cup precedent

10 Prize money

\$871M, nearly double Qatar 2022

11 Estimated economic impact

global, by country and by city — with the caveats

12 Investment and infrastructure

no new stadiums, and what that changes

13 Hospitality and premium experiences

five tiers, up to \$73,200 per person

14 Technology and product innovations

on the pitch, for the fan, for the broadcaster

15 Risks, controversies and criticism

pricing, geopolitics, logistics, inflation, reputation

16 Operational calendar

from the opening match to the final

17 Why this World Cup is a unique case study

ten reasons in one page

About this file. This is the English edition of the consolidated context file behind the GEORadar audit of the FIFA World Cup 2026 — a study of how ChatGPT and Gemini describe the tournament to fans in 16 countries and 4 languages. Data is current as of 26 May 2026; any moving data point (dynamic prices, play-off results) may have changed since. Produced by **GEORadar by 498 Advance** — 498advance.com

01 Executive summary

The **FIFA World Cup 2026** is the **23rd edition** of the FIFA World Cup. It runs from **11 June to 19 July 2026** across **the United States, Mexico and Canada**, and sets several historic records.

HOST COUNTRIES

3

A first. The previous maximum was 2 (Japan-Korea 2002).

TEAMS

48

Up from 32 in Qatar 2022 — the biggest expansion since 1998.

MATCHES

104

Over 39 days, vs 64 in 2022 → +62%.

PRIZE POOL

\$871M

Almost 2× the \$440M of Qatar 2022. Winner: \$50M.

The records

- **First World Cup with 3 host countries** (the previous maximum was 2, Japan-Korea 2002).
- **First World Cup with 48 national teams** (vs. 32 in Qatar 2022).
- **104 matches** over 39 days (vs. 64 in 2022) → +62% more matches.
- **The most expensive and most lucrative World Cup ever**: projected revenue of ~\$11B across the 2023-26 cycle; ~\$8.9B directly attributable to the event.
- **Record total prize pool of \$871M** (almost 2× the \$440M of Qatar 2022). Winner: \$50M.
- **First use of dynamic pricing** (real-time algorithmic prices) across the entire ticket inventory.
- **Mexico becomes the first country to host 3 World Cups** (1970, 1986, 2026).
- It will also be the **most expensive World Cup ever for the spectator**: Cat 1 final tickets opened at \$6,000 and passed \$32,000 by May 2026.

Why the business model matters. FIFA is experimenting with dynamic pricing, a resale marketplace charging a 30% commission, sponsorship expanded to 16 tier-1 slots sold out in full, premium hospitality, and broadcast rights split by language and platform. The 2026 World Cup is the laboratory where Infantino is testing FIFA's conversion into an NFL/NBA-style entity: yield maximisation per seat, premium segmentation and recurring rents.

02 Tournament basics

ITEM	DETAIL
Edition	23rd FIFA World Cup
Hosts	United States, Mexico, Canada
Dates	11 Jun – 19 Jul 2026 (39 days)
Teams	48
Matches	104
Groups	12 groups of 4 teams
Stadiums	16
Host cities	16 (11 USA, 3 Mexico, 2 Canada)
Opening match	Estadio Azteca, Mexico City (11 Jun)
Final	MetLife Stadium, East Rutherford, New Jersey (19 Jul)
Semi-finals	AT&T Stadium (Dallas) · Mercedes-Benz Stadium (Atlanta)
Mascots	"Maple", "Zayu" and "Clutch" (moose, jaguar, eagle — one per host country)
Official ball	adidas TBD
Final draw	5 Dec 2025 · Kennedy Center, Washington D.C.

03 Host cities and stadiums

Sixteen official stadiums, with the capacities used for the World Cup.

United States (11 venues)

CITY	STADIUM	CAPACITY	NFL TEAM	KEY ROLE
Arlington (Dallas/Fort Worth)	AT&T Stadium	92,967	Dallas Cowboys	Semi-final
East Rutherford (NY/NJ)	MetLife Stadium	~78,576	NY Giants/Jets	FINAL + 7 more
Atlanta	Mercedes-Benz Stadium	~75,000	Atlanta Falcons	Semi-final
Philadelphia	Lincoln Financial Field	~75,000	Philadelphia Eagles	Round of 16
Boston (Foxborough)	Gillette Stadium	~70,000	New England Patriots	Quarter-final
Houston	NRG Stadium	~72,000	Houston Texans	Round of 16
Los Angeles (Inglewood)	SoFi Stadium	~70,000	LA Rams/Chargers	Round of 16
San Francisco Bay (Santa Clara)	Levi's Stadium	~70,909	San Francisco 49ers	Group stage
Seattle	Lumen Field	~69,000	Seattle Seahawks	Group stage
Miami Gardens	Hard Rock Stadium	~65,000	Miami Dolphins	Third-place play-off
Kansas City	Arrowhead Stadium	~76,000	Kansas City Chiefs	Group stage

Mexico (3 venues)

CITY	STADIUM	CAPACITY	KEY ROLE
Mexico City	Estadio Azteca / Banorte	~87,500	Opening match
Guadalajara	Estadio Akron	~48,000	Group stage
Monterrey (Guadalupe)	Estadio BBVA	~53,500	Group stage

Canada (2 venues)

CITY	STADIUM	CAPACITY	KEY ROLE
Vancouver	BC Place	~48,821	Round of 16 · Canada home matches
Toronto	BMO Field (expanded)	~45,736	Eastern zone opener

Official geographic clustering (to minimise travel during the group stage)

West: Vancouver · Seattle · San Francisco · Los Angeles · Guadalajara

Central: Mexico City · Monterrey · Houston · Dallas · Kansas City · Atlanta

East: Toronto · Boston · Philadelphia · NY/NJ · Miami

04 Qualified teams (48)

Distribution by confederation

CONFEDERATION	DIRECT SLOTS	PLAY-OFF SLOTS	TOTAL
UEFA (Europe)	16	0	16
CAF (Africa)	9	1	9-10
AFC (Asia)	8	1	8-9
CONMEBOL (South America)	6	1	6-7
CONCACAF (North/Central America & Caribbean)	3 + 3 hosts	2	6-8
OFC (Oceania)	1	1	1-2
Inter-confederation play-off	—	6 teams for 2 slots	2
TOTAL	—	—	48

Top seeds (Pot 1) — Groups A–L

GROUP	TOP SEED	GROUP	TOP SEED
A	Mexico HOST	G	Belgium
B	Canada HOST	H	Spain
C	Brazil	I	France
D	United States HOST	J	Argentina HOLDERS
E	Germany	K	Portugal
F	Netherlands	L	England

Notable debutants

- **Uzbekistan** (AFC) — first World Cup.
- **Jordan** (AFC) — first World Cup (qualified 5 Jun 2025).
- **Cape Verde** (CAF) — first World Cup.
- **Curaçao** (CONCACAF) — first World Cup (qualified with a 0-0 draw vs Jamaica).

Full list (indicative, subject to play-offs)

CONFEDERATION	TEAMS
UEFA (16)	Germany · Spain · France · England · Portugal · Netherlands · Belgium · Italy · Croatia · Poland · Switzerland · Austria · Denmark · Serbia · Türkiye · Czechia
CONMEBOL (6 + play-off)	Argentina · Brazil · Uruguay · Colombia · Ecuador · Paraguay · (Bolivia/Venezuela via play-off)
CONCACAF (3 hosts + 3 direct + 2 play-off)	Mexico · USA · Canada · Costa Rica · Panama · Jamaica · Curaçao · (Honduras/Suriname via play-off)
CAF (9)	Morocco · Senegal · Egypt · Algeria · Nigeria · Tunisia · Ivory Coast · Cameroon · Cape Verde + (1 play-off)
AFC (8)	Japan · South Korea · Saudi Arabia · Iran · Australia · Qatar · Uzbekistan · Jordan + (1 play-off)
OFC (1)	New Zealand + (1 play-off)

Caveat

The final field was settled by the inter-confederation play-offs played in **March 2026** in Mexico (Guadalajara and Monterrey).

05 Competition format

Group stage

- 12 groups (A–L) of 4 teams.
- 3 matches per team → 72 group-stage matches.
- Qualification for the round of 32: top 2 from each group (24 teams) plus **the 8 best third-placed teams** (out of 12).

Knockout stage

- **Round of 32** — a new stage introduced in 2026.
- Round of 16.
- Quarter-finals.
- Semi-finals.
- Third-place play-off + Final.

Criticism of the format

- The "8 best third-placed teams" system can create **perverse incentives** on the final matchday (teams calculating how to lose by fewer goals).
- The original idea of **16 groups of 3** was dropped because of the risk of collusion (the "Gijón 1982" problem).
- **Length**: a champion now has to play **8 matches** (vs 7 under the previous format).

06 Business model (the 2026 novelty)

6.1 Overview — Infantino's "FIFA 2.0"

The 2026 World Cup is the **first large-scale implementation of the "NFL / Live Nation-style" model** FIFA has been building since 2018.

VECTOR	QATAR 2022 MODEL	USA-MX-CA 2026 MODEL
Sponsorship	11-13 global tier sponsors	16 tier-1 sponsors (SOLD OUT)
Tickets	Fixed price per category	Algorithmic dynamic pricing
Resale	External secondary market	FIFA Marketplace, 30% commission
Hospitality	~10% of capacity	15-18% of capacity , packages up to \$73,200/person
Broadcast rights	Country packages	Segmented by language + platform + streaming
Prize money	\$440M	\$871M (+98%)
Direct-to-consumer streaming	—	FIFA+ + FOX One + DAZN

6.2 Total projected revenue (2023-26 cycle)

SOURCE	AMOUNT (USD)	% OF TOTAL
TV/streaming broadcast rights	\$3.92B	36%
Ticketing + Hospitality (FIFA projection; independent estimates put it at \$7.44B)	\$3.10B	28%
Marketing/Sponsorship	\$2.70B	25%
Licensing, merchandising, other	\$1.18B	11%
Total 2023-26 cycle	~\$11.0B	100%
<i>of which attributable to the 2026 World Cup</i>	~\$8.9B	—

Independent estimates point to **\$14-19B** in total revenue if the high scenario for ticketing + hospitality + resale materialises.

6.3 The five big model innovations

1 · DYNAMIC PRICING (REAL-TIME VARIABLE PRICING)

- Prices fluctuate with demand, exactly as with airlines or Ticketmaster.
- Cat 1, opening match in Mexico City: launched at ~\$600 → now >\$2,500.
- Cat 1, final: launched at ~\$6,000 → passed **\$32,000** in May 2026.
- Cat 3 (cheapest) for the final: **>\$1,000**.

- **Face-value ceiling for the final:** \$11,000 (vs \$1,607 in Qatar 2022 → +588% in 4 years).

2 · FIFA MARKETPLACE (OFFICIAL RESALE WITH COMMISSION)

- FIFA takes **30% of every resale transaction**.
- A ticket bought at \$1,500 and resold at \$30,000 = **\$9,000 of pure margin** for FIFA.
- It turns the fan into a "retailer" of their own inventory.

3 · EXPANDED SPONSORSHIP TIER (SOLD OUT, MARCH 2026)

- 16 tier-1 slots sold — a first in World Cup history.
- Aggregate yield of the sponsorship package: ~\$2.7B.

4 · SCALED-UP PREMIUM HOSPITALITY

- 15–18% of capacity given over to corporate packages.
- MetLife Stadium (final): packages from **\$3,500 to \$73,200/person** for 8 matches.
- European corporate travel budgets up 30–40% vs 2022.

5 · DIRECT-TO-CONSUMER STREAMING (D2C)

- **FOX One** (USA, EN): new app carrying all 104 matches as streaming.
- **FIFA+**: FIFA's own platform with behind-the-scenes content and ad revenue.
- **DAZN** (Spain and others): paid exclusive plus a free sub-licence to RTVE.

07 Sponsors and partners

Tier 1 — FIFA Partners (global, multi-event, 4 years)

Estimated investment: >\$500M per brand across the full cycle.

PARTNER	SECTOR	ORIGIN
adidas	Sportswear / Official ball	Germany
Coca-Cola	Beverages	USA
Hyundai-Kia	Automotive	South Korea
Visa	Payments	USA
Aramco	Energy	Saudi Arabia
Lenovo	Technology	China
Qatar Airways	Airlines	Qatar

Tier 2 — World Cup Sponsors (event-specific)

Estimated investment: \$65M – \$95M per brand.

SPONSOR	SECTOR	SPONSOR	SECTOR
Bank of America	Banking	McDonald's	QSR
Verizon	Telecoms	Mengniu Dairy	Dairy (China)
Frito-Lay (PepsiCo)	Snacks	Unilever	FMCG
AB InBev (Budweiser)	Beer	Hisense	Consumer electronics (China)

Tier 3 — Regional Supporters

Split by block: North America, LatAm, Europe, MENA, Asia-Pacific, Africa.

SPONSORSHIP REVENUE

\$2.7B

Total across the 2023-26 cycle.

TIER-1 SLOTS

16/16

First World Cup 100% sold out, as of March 2026.

CRYPTO FINTECH

0

Notable absence: Binance did not renew after Qatar 2022.

Heavy Asian weighting across the roster: Lenovo, Hisense, Mengniu, Hyundai-Kia, Qatar Airways and Aramco.

08 Broadcast and media rights

Total broadcasting revenue: ~\$3.92B — the single largest revenue line.

MARKET	RIGHTS HOLDERS
United States	FOX Sports (English): contract through 2026, combined value with Telemundo of \$1.25B signed back in 2011 · Telemundo (Spanish, NBCUniversal): 92 matches free-to-air plus full coverage on Peacock · FOX One : new streaming app carrying all 104 matches.
Canada	Bell Media (CTV/TSN) + TVA Sports (French).
Mexico	Televisa-Univision + TV Azteca (free national coverage required by law).
United Kingdom	BBC + ITV: shared free-to-air package, no subscription.
Spain	RTVE (free-to-air): paid €55M (~\$60M) for the package, covering every Spain match, the opening match, the semi-finals and the final · Mediapro + DAZN : paid rights to all 104 matches, DAZN as the exclusive paid streaming outlet. A "public TV for the national team, pay-TV for everything else" model.
Latin America	Televisa, TV Azteca (Mexico) · TyC Sports, TV Pública (Argentina) · Globo, SporTV (Brazil) · DirecTV Sports (rest of the region, paid).
Australia	SBS: all 104 matches free-to-air (an unbroken tradition since 1986).
Rest of the world	beIN Sports (MENA + Asia-Pacific) · CCTV (mainland China) · NHK (Japan) · SuperSport (sub-Saharan Africa).

Key trend. FIFA is fragmenting the packages — language × platform × free vs pay — to maximise yield. This is a break with the historic "one national broadcaster" model.

09 Revenue streams, broken down

For FIFA (2023-26 cycle)

REVENUE LINE	VALUE (USD)	MECHANICS
Broadcasting	\$3.92B	Auctioned by market, fragmented by language/platform
Ticketing	\$1.6–4.0B	Dynamic pricing + categories 1-4 + Marketplace 30% commission
Hospitality	\$1.5–3.4B	Corporate packages \$3,500–\$73,200 via On Location (Endeavor/IMG)
Tier 1 sponsorship	~\$1.8B	7 partners × \$250-500M per cycle
Tier 2 sponsorship	~\$0.9B	8 sponsors × ~\$80-100M
Licensing / Merchandising	~\$0.6B	adidas (apparel), Panini (stickers), EA Sports (video game)
FIFA+ (D2C streaming)	~\$0.3B	Ads + B2B subscriptions
Side events (Fan Festivals)	~\$0.2B	Sponsorship + activations
TOTAL	~\$11B	

The FIFA Club World Cup 2025 — the predecessor model

- Total prize money: **\$1,000M** (\$475M participation + \$525M performance).
- DAZN paid **~\$1B** for the global rights to the Club World Cup.
- 12 European clubs took ~\$306M (58% of the pool); 20 non-European clubs shared \$219M.
- Additional revenue into the FIFA cycle: **\$2B**.

10 Prize money

Record total pool: **\$871M** (+98% vs Qatar 2022). Approved by the FIFA Council on 28 April 2026 in Vancouver, raising the original \$727M by a further 15%.

Breakdown by stage (estimated)

STAGE / RESULT	PRIZE PER TEAM (USD)
Champion	\$50M
Runner-up (final)	\$35M
3rd (losing semi-finalist)	\$28M
4th (losing semi-finalist)	\$25M
5th–8th (quarter-final exit)	\$19M
9th–16th (round of 16 exit)	\$13M
17th–32nd (round of 32 exit)	\$9M
33rd–48th (group stage)	\$6.5M

Guaranteed payments

- **\$12.5M per qualified team:** \$10M qualification money + **\$2.5M preparation funding** (new — for training camps, logistics and staff).
- **\$655M** performance pool (vs \$440M in Qatar 2022 → +49%).

Comparison with Qatar 2022

ITEM	QATAR 2022	USA-MX-CA 2026	Δ
Total prize money	\$440M	\$871M	+98%
Winner	\$42M	\$50M	+19%
Runner-up	\$30M	\$35M	+17%
Minimum per team	\$9M	\$12.5M	+39%

11 Estimated economic impact

Global

GLOBAL GDP

\$40.9B

Upper bound of the FIFA projection.

GLOBAL EMPLOYMENT

824K

Full-time equivalent jobs.

GROSS GLOBAL OUTPUT

\$80.1B

Total economic output.

US TOURIST SPEND

\$6.4B

Joint FIFA + WTO study.

United States

- **Total output:** \$30.5B · **boost to national GDP:** \$17.2B.
- **Jobs:** ~185,000 FTE · **visitors:** ~3.5M additional international visitors.

CITY / REGION	ECONOMIC IMPACT
NY/NJ	\$3.3B + 26,000 jobs + 1.2M visitors
Dallas/Fort Worth	\$2.1B (estimated)
Atlanta	\$1.8B (estimated)
Los Angeles	\$1.6B
Houston	\$1.3B
Miami	\$1.2B
Boston	\$1.0B
Seattle	\$0.9B

Canada

Total impact **CAD 3.8B** (\$2.8B USD) · GDP boost CAD 2.0B · wages CAD 1.3B · **~24,000 jobs**.

Mexico

Official estimates (SECTUR + FIFA Mexico): **~\$3.0B USD** of impact + 24,000 direct jobs · approximately **5.5M visitors**, domestic and international.

Critical caveats

- Independent economists note that mega-event projections **routinely overstate** real impact by 30-40%.
- Post-Qatar 2022 studies showed a net impact below the projection.
- **Crowding out:** part of the tourist spend displaces other sectors rather than adding incremental demand.
- **White elephants:** stadiums left underused (see Brazil 2014, South Africa 2010).

12 Investment and infrastructure

Direct public investment

- **No stadiums are being built from scratch** — all 16 already existed. That cuts the cost dramatically versus Qatar 2022 (~\$220B) or Russia 2018 (~\$11.6B).
- **Specific renovations:** new roof at BMO Field, Lumen Field expansion, Estadio Akron refurbishment, MetLife Stadium upgrades for football (temporary natural turf over artificial).

Private investment

INVESTOR	INVESTMENT
On Location (Endeavor/IMG)	Exclusive hospitality partner — ~\$200M of its own investment in infrastructure and staffing
adidas	Brand activations and Fan Festivals (~\$150M estimated)
Coca-Cola	~\$120M in activations
Visa	Funds the cashless infrastructure across all 16 stadiums

Transport investment (USA)

- Airport upgrades: Dallas-Fort Worth, Atlanta (ATL), JFK/Newark, LAX, Miami.
- Mass transit: expanded service in NY/NJ (NJ Transit), Boston (MBTA), LA (Metro Expo Line).
- Estimated US infrastructure cost: **\$2.5–3.5B**, public plus private.

Security investment

- Joint operation across the FBI, Secret Service, RCMP (Canada) and National Guard (Mexico).
- Estimated security budget: **\$1.0B** spread across the three countries.

13 Hospitality and premium experiences

Official provider: **On Location**, an **Endeavor/IMG** subsidiary.

Hospitality package tiers

TIER	PRODUCT	PRICE (USD/PERSON/MATCH)
Bronze	Cat 1 seat + light catering	\$1,500 – \$3,500
Silver	Premium lounge + open bar	\$3,500 – \$8,000
Gold	Shared suite + chef + VIP parking	\$8,000 – \$18,000
Platinum	Private suite + concierge + meet & greet	\$18,000 – \$40,000
Diamond Trophy	Locker-room access + dinner with former players	\$40,000 – \$73,200

Multi-match packages (MetLife, final venue)

- **All 8 matches at MetLife** (including the Final): \$3,500 – \$73,200/person.
- "Final + Semi-final" package: ~\$45,000.
- "Follow Your Team" (6+ matches with your national team): ~\$80,000.

Yield for FIFA. Hospitality generates **~30% of revenue per seat** from **~15-18% of capacity**. Estimated FIFA margin: **35-45%** on hospitality revenue, after the On Location fee.

14 Technology and product innovations

On the pitch

- **VAR + semi-automated offside technology** (carried over from Qatar 2022).
- **Connected Ball** (adidas): a 500Hz IMU sensor inside the ball for automatic touch detection.
- **Real-time statistics** available through the FIFA+ app: player positions, pressing, expected goals.

For the fan

- **FIFA+ app**: behind-the-scenes coverage, alerts, community.
- **Cashless payments**: Visa only in every stadium — controversial, given the payment exclusivity.
- **Digital identity**: opt-in facial-recognition entry (mainly in the USA).
- **Real-time translation**: AR glasses with subtitles for foreign visitors (NY/NJ pilot).

For the broadcaster

- **Multi-angle 8K**: 8K production for the final.
- **Player-cam**: dedicated cameras on star players.
- **AI commentary**: synthetic commentary in minority languages.

Sustainability

FIFA's target is **net-zero carbon on FIFA operations**, excluding fan travel, with the footprint offset through verified credits. The criticism: the 48-team, three-country format **raises the travel footprint by ~40%** versus 2022.

15 Risks, controversies and criticism

15.1 Criticism of the pricing model

- **Peter Moore** (former Liverpool CEO) called dynamic pricing "**dystopian**" and exclusionary for the traditional fan base.
- **Football Supporters Europe** (FSE) has argued that the effective price is **6×** that of Qatar 2022.
- For comparison: **Super Bowl LX costs less** than a Cat 1 ticket to the 2026 World Cup final.

15.2 Geopolitics

- **US visa restrictions:** citizens of several countries (Cuba, Iran, Yemen) face entry difficulties → an impact on fans of qualified teams.
- **Political tension with Canada and Mexico** (Trump 2.0 administration): presidential guarantees of free movement during the World Cup have been offered.

15.3 Logistics

- **Distances between venues** (Vancouver ↔ Miami = 5,700 km, a 6-hour flight) are a challenge for teams and fans alike.
- Partly mitigated by the geographic clustering of groups.

15.4 Local inflation

- Hotels in NY/NJ and Mexico City have raised rates by **300-500%** for peak weeks.
- Special Airbnb restrictions in Mexico City and Toronto.

15.5 FIFA reputational risk

- Questions over the weight of Saudi sponsors (Aramco) and the award of the 2034 World Cup to Saudi Arabia.
- Independent audits into **prize-money distribution** and the opacity of the allocation.

16 Operational calendar

DATE	MILESTONE
11 Jun 2026	Opening match · Mexico vs ____ · Estadio Azteca (Mexico City)
11–27 Jun 2026	Group stage (72 matches)
28 Jun – 3 Jul 2026	Round of 32 (16 matches)
4–7 Jul 2026	Round of 16 (8 matches)
9–11 Jul 2026	Quarter-finals (4 matches)
14–15 Jul 2026	Semi-finals · AT&T (Dallas) + Mercedes-Benz (Atlanta)
18 Jul 2026	Third-place play-off · Hard Rock Stadium (Miami)
19 Jul 2026	FINAL · MetLife Stadium (NY/NJ)

17 Why this World Cup is a unique case study

1. **The largest sporting event in history by revenue** (~\$11B across the cycle, ~\$8.9B directly attributable).
2. **The first World Cup with tier-1 sponsorship 100% sold out**, as of March 2026.
3. **The first time dynamic pricing covers the entire inventory**.
4. **The first time FIFA runs its own Marketplace** (30% commission on resales).
5. **The largest format expansion** (32 → 48 teams) since 1998.
6. **Three hosts** for the first time.
7. **Mexico**, the first country to host 3 World Cups (1970, 1986, 2026).
8. **A final at MetLife Stadium**, the first World Cup on US soil since 1994 (that final was in Pasadena).
9. **Record prize money**: \$871M, almost 2× Qatar 2022.
10. **The "NFL" model**: heavy premium segmentation, with hospitality at 30% of revenue per seat from 15-18% of capacity.

The GEORadar angle. An event this dense in numbers, narratives and competing interests is also a stress test for generative AI: what ChatGPT, Gemini and the other engines tell a fan about where to travel, who will win and what it will cost. That is what the GEORadar audit of the tournament measures — across 16 fan profiles and 4 languages.
